

ENLENS

Energy Transition through the Lens of Sustainable Development Goals

Research Priority Area (RPA)

University of Amsterdam

ENLENS

The aim of this Research Priority Area (RPA) is to stimulate and initiate interdisciplinary cross-faculty research that maps the **Energy transition** in the Netherlands and Europe against the **Sustainable Development Goals (SDGs)** beyond Dutch borders.

The energy transition is closely intertwined with essentially all Sustainable Development Goals, but its wider effects are seldom taken into account or studied in detail.
