The minor Politics offers students fundamental knowledge on political processes. It studies both political conflict and cooperation, and the exercise, control and restrictions on political power in various countries in the world.

The programme is especially attractive to students who aspire a job in a political environment such as in journalism, at a NGO or political party, or as a campaigner or public affairs professional. We offer a broad disciplinary base in political science and particularly focus on the subfield of Comparative Politics that studies the differences among countries in their state-society relations.
Courses:
- Introduction to Politics (block 1 and 2) 12 EC
- Core Module Comparative Politics (block 4 and 5) 12 EC

Elective 6 EC, options are:
- Democracies, Autocracies and Transitions (block 2).
- Diversity, Equality and Justice (block 4).
- Politics, media and communication (block 4).

This minor is set up as a dual language program, which means that Dutch language students can decide to take some of the tutorials in Dutch and are allowed to write in Dutch. However, it is possible that if too few Dutch language students register for courses the Dutch language tutorials are cancelled and all teaching is in English.
