

Proof of qualifications- Entry Requirements Research Master's Psychology

*Before submitting your proof of qualification, please ensure that you have carefully read the entry requirements and explanatory notes available on our [website](#) under Application and Admission. Once you have read and understood these guidelines, you may proceed with the following **4 steps**:*

Your request is only completed when you follow all the necessary steps.

Name	
Student number	

Step 1 (applicable only to non-Dutch prior education)

Please indicate the number of credits according to your university's credit system and provide the equivalent number of EC credits.

Local credit:

EC credit:

Grading scheme

Enter the grading scheme supplied by your university. Also indicate what grade is cum laude or suma cum laude (if applicable at your university).

--

Step 2

Fill in the tables provided. Enter the course name, code, number of EC and grade in the appropriate columns. The course name and the grade should exactly match the data on your transcript.

Please take note of the following important instructions:

- You must have passed all listed courses in order to meet the requirements.
- If you have not yet received all your grades, you may also include courses you have not yet completed. In that case, indicate **NFY** (Not Finished Yet).
- It is only permitted to list the same course under multiple qualification areas, if the total number of ECs for that course is divided across the relevant areas.
Note: You decide how to divide the ECs, as long as the total ECs per course are not exceeded. You must always indicate the total EC value of the course in parentheses
- For all requirements, an average mark of 7.5 or higher is required (or equivalent, such as A-/B+/3.5 in the US system, a B in the ECTS system, or a 2.1 Hons in the British system)

A. ≥ 24 EC Basic knowledge in the most important fields of Psychology

Course name and code	Grade	Dutch/ Converted amount of EC ¹	Original amount of EC ²	Course level ³

¹ If you list the same course under multiple qualifications areas, make sure you always indicate the total EC value of the course in parentheses.

² To be completed only by students who have completed their prior education outside Europe ([more information](#)).

³ Indicate the year level of your bachelor's programme at which this course was offered (1/2/3).

➔ These instructions also apply to the tables below in this document.

B. ≥ 24 ec Methods and statistics courses in Psychology or Social Sciences (At 1st, 2nd or 3rd year level of which ≥ 21 EC on quantitative research and at least ≥ 4 ec at 3rd year level)

[illegible]

C. ≥ 9 EC (at least) one empirical research project (of ≥ 9 EC) about which you wrote an *individual* report on a Psychological or related Social Science subject.

Please note:

1. A literature review does not suffice; you must have carried out empirical research, i.e. collected and analysed data.
2. If this report is not written in Dutch or English, please add an English translation in the application system (see step 4).

Course name and code	Grade	Dutch/ Converted amount of EC*	Original amount of EC**	Course level***

D. ≥12 ec Advanced knowledge and skills courses relevant for the field of the intended major (At 2nd or 3rd year level)

Note: Subjects in your intended minor cannot be used for this section.

Intended Major:

Choose your intended Major

[illegible]

Step 3

Additional Questions

1. What makes you fit for the Research Master, and specifically your chosen major? (max. 100 words)

- Think about which courses from your bachelor are relevant here.
- Do you have other experiences (e.g., work, internship, volunteering, management, publications, etc.) that could contribute to success in Research Master?

2. Give an example of one or two [Research Master's elective courses](#) you would like to follow during your track and explain why these courses appeal to you. (max. 100 words)

3. Give an example of an investigation that you could do for your Research Master thesis. (max. 250 words).

- Explain why this topic appeals to you.
- Provide suggestions for a research design and provide rationale for your choice.

4. What are your plans after graduating? And how does this programme work for you? (max. 100 words)

Step 4

1.

Please provide official course descriptions for all courses listed in Step 2. Organize all course descriptions in one document and upload this document in the SIS application system. You may either provide URLs to the official course descriptions on your university's website (only if they are publicly accessible) or include the full course descriptions in this document, listed consecutively for all courses.

The course descriptions should be taken from your university's official course catalogue and may be provided in Dutch or English (translated into English if necessary). They should include the learning objectives, course content, teaching and learning methods, and required course literature, including the relevant chapters where specified. If the required literature is not included in the official course description, please add it separately, stating the book title, author(s), and required chapters.

2.

Please also upload your undergraduate thesis, research project, thesis abstract, or approved research proposal in the SIS application system as supporting documentation for Requirement C. If the document is not in Dutch or English, please provide an English translation.

Please make sure you have completed all required fields in this form and uploaded it to the SIS application system.
