
Graduate School of Social Sciences

THINGS YOU NEED TO KNOW BEFORE APPLYING

Last updated: 29 September 2026

This guide is meant for students wishing to apply for one of the Master's programmes offered by the Graduate School of Social Sciences (GSSS). It explains the application procedure in detail.

Preparing your application

You have chosen one of our Master's programmes and you are about to apply. We look forward to receiving your application!

As selection may be highly competitive, admission cannot be guaranteed. A well prepared application will give you the best possible start. Please make sure that your application gives the Admissions Board the best and most complete picture of your academic background and motivation.

Also, please make sure that your application is complete before you submit. Everything that the Admissions Board must know in order to assess your application should be filled in and uploaded before you submit. The Admissions Board will only evaluate complete applications. A complete application means that you have uploaded all the required documents and have submitted a complete application file. Incomplete applications will not be forwarded to the Admissions Board and your application will be cancelled.

To make sure your application is complete, please take note of:

Quick reference:

- [Programmes and deadlines](#)
- [Required documents](#)
- [Certified Documents](#)

For more comprehensive guidance:

- The information presented in this guide

- [Documents explained](#)

Planning your application

Application deadlines

Please refer to our elaborate overview of [Programmes and deadlines](#). Please submit your online application on the day of the deadline 23h59 (CET) at the latest, or on the day of the early deadline if you are in need of a visa and/or scholarship, also 23h59 (CET) at the latest.

Start programmes

All Master's programmes start in September.

Pre-Master's programmes

Depending on the Admissions Board's assessment of your academic background, you may be offered enrolment at an earlier or later date, starting with a pre-Master's programme.

If your academic background is relevant but lacking in social sciences research methodology, it is recommended that you allow for a possible early start in July/August as we offer the Comprehensive Introduction to Research Methodology and Design in July and August.

If your academic background is not entirely relevant, it is recommended that you allow for the possibility of having to follow a pre-Master's programme of 4 to 12 months prior to the start of the Master's programme.

Please refer to our [website](#) for more information on pre-Master possibilities for each of our Master's programmes. See also the section *Applying for a preparatory programme* below.

Early notification needed?

Students who wish to apply for one of the University of Amsterdam scholarships or who are in need of a visa, please note that the application deadline is **15 February 2027**. See also section *Applying for a Scholarship*.

Students who are applying for a scholarship that is not offered by the University of Amsterdam, or other funding and therefore in need of an early notification of admission, are advised to apply as soon as possible and at least 2,5 months before the desired date of notification, and before applying for the scholarship or other funding. Timely handling will be aimed for, but cannot be guaranteed.

Please also note that an early notification may not be possible at all if applying for a highly competitive Master's programme. Your application may need to await comparison with the other applications before a final decision can be made. See the overview of [Programmes and deadlines](#) for an indication of expected selectivity.

Are you an UvA Bachelor's student with a Bachelor's degree in "Sociale Geografie en Planologie" or "Sociologie" or "Politologie" and applying to the corresponding Master's programme (doorstroommaster) or a UvA Bachelor's student in "Interdisciplinaire Sociale Wetenschap" applying to our MSc programme Sociology?

Are you an UvA Bachelor's student in "Sociale Geografie en Planologie" or "Sociologie" or "Politologie" and do you graduate before 1 September? Then you do not need to submit an application via SIS when you are applying to the corresponding Master's programme. The same applies to UvA Bachelor's students in "Interdisciplinaire Sociale Wetenschap" who wish to apply to our MSc programme Sociology. Your enrollment will become definitive as soon as the UvA has registered your graduation. Your graduation date must be no later than 31 August in order to be able to start the Master's programme on 1 September.

Applying for a second track

Within one (and the same) Master's programme offered by the GSSS, you may apply for a maximum of 2 tracks. If you wish to do so, you can select a second track in your application file in SIS. Please note that we will start by processing your first track. The Admissions Board's decision for the first track will then also apply for the second track. There is one exception: if not admitted to our Master's programme Cultural and Social Anthropology Visual track, admission to Cultural and Social Anthropology and Cultural and Social Anthropology Applied track, may still be possible.

Applying for more programmes

In Studielink, students can apply for a maximum of 4 programmes selected from the Master's programmes offered by the GSSS or offered by another faculty of the UvA or even by another university in the Netherlands.

If you wish to do so, please submit 4 separate applications in SIS.

You can find more information on how to register in Studielink when applying for a second track or programme on the Application and Admission page of each Master's programme (under point 3).

If accepted for more programmes or tracks (with us or other institutes), we recommend you choose just one. Our programmes need to be studied full time, each representing a minimum 40-hour workload per week.

Applying for a pre-Master's programme

If you do not meet the entry requirements of the programme yet (e.g. if you are a Dutch HBO student or a student from a different academic field), it may be possible to complete a pre-Master's programme (schakelprogramma) first.

Please check the information of the Master's programme on our [website](#) to see whether your academic background meets the entry requirements and whether there is a suitable pre-Master's programme on offer.

Application for a pre-Master's programme is not needed or even possible: you just need to register and apply for the Master's programme itself. The

Admissions Board will assess your application for the Master's programme and decide if a pre-Master's programme or course is indeed needed and if it will sufficiently prepare you for entry to the Master's programme.

Please adhere to the application deadline of the Master's programme. To avoid delay in enrolment, however, it may be advisable to adhere to an earlier application deadline. Depending on the estimated workload of the pre-Master's programme, one to two semesters earlier is advised.

Please note that tuition fees for pre-Master's programmes may differ substantially from tuition fees for Master's programmes.

Please also note that admission to a pre-Master's programme is as competitive as admission to the corresponding Master's programme. If and when accepted to a pre-Master's programme, you will have guaranteed access to the Master's programme starting in the semester following the timely completion of the pre-Master's programme.

Applying for the Amsterdam Merit Scholarship (UvA scholarship)

For updated information and how to apply for the AMS, please check our [website](#).

For other scholarships, it is also recommended to consult:

- The study abroad office at your (previous) university
- The Dutch embassy or consulate in your country of residence
- The Netherlands Organisation for International Cooperation in Higher Education (NUFFIC): www.nuffic.nl
- www.grantfinder.nl

On your Master's application in SIS we ask whether you want to be considered for the Amsterdam Merit Scholarship (UvA scholarship). Please check this box if you want to be considered and if you fulfill all scholarship requirements mentioned on our [website](#). If you have indicated in your Master's application that you would like to be considered for the Amsterdam Merit Scholarship, next to the documents required for your Master's application, you will also need to upload a self-composed **PDF file**. This single PDF file can be uploaded in the section 'Additional documents' (in the left corner) under the item '***scholarship motivation letter***'. An application for the AMS without having (timely) applied for the study programme (and vice versa) will be rendered invalid.

Before applying

Before submitting your application in SIS, you will need to register in Studielink first. Please take the following steps:

1. *Apply for your DigiD (Dutch students only)*

Dutch students will need their Dutch civil number DigiD when registering in Studielink. All other students can register in Studielink without DigiD. Dutch students are strongly recommended to apply for their DigiD 3 weeks before registering in Studielink at the latest.

Please refer to: www.digid.nl

2. *Register in Studielink*

Register in Studielink for the Master's programme(s) of your choice. Please follow the instructions Studielink will give you.

Please refer to: www.studielink.nl

If you wish to apply for a pre-Master's programme, please register and apply for the corresponding Master's programme.

If you wish to apply for a specialization/track, please choose the study programme name first. After confirming the study programme and starting date you will be asked to indicate the specialization/track in SIS.

You can find more information on how to register in Studielink on the Application and Admission page of each Master's programme (under point 3).

Our programme names may differ from the ones in Studielink. An overview of the current programme titles and the corresponding Studielink names is given below (next page):

Master's programmes

3. *Receive your UvAnetID*

If you are not a University of Amsterdam student yet, you will receive your UvA student number by e-mail within 1 to 2 working days after registering in Studielink. You will need the UvA student number for your application in SIS. Please register in Studielink 2 working days before the application deadline at the latest. After receiving your student number you will be invited to complete your application through SIS.

4. *Pay the application fee*

All students applying for a Master's degree programme with an international bachelor's diploma are required to pay a non-refundable €100

application fee. Only after you have paid this fee can the UvA start to process your application.

You need to pay your application fee in SIS. You can pay your €100 application fee by credit card (Master or Visa), GooglePay, ApplePay, Bancontact or iDEAL.

Only after paying the fee, you can start your application in SIS. It is not possible to start an application without paying the application fee. Note that it can take up to 24 hours for your fee payment to be registered and you are able to submit your application in SIS. Make sure to pay your application fee in time and at least 24 hours before the application deadline of your programme.

If you have any questions regarding the payment, please contact the Central Student Service Desk (CSSD).

You don't have to pay the application fee:

- If you have or will obtain a bachelor's degree from a Dutch research university or university of applied sciences (HBO).
- If you have already applied and have paid the application fee for another Master's programme at the UvA for the academic year 2027-2028.
- If you are applying through the Foundation for Refugee Students (UAF).
- If you have already applied and have paid the application fee for one of our Master's programme for the academic year 2026-2027 **but did not enroll** and would like to apply again for 2027-2028.

Before submitting

Is your application complete?

For more guidance, please refer to [Required documents](#). Please make sure that your application is complete before you submit.

Documents cannot be added afterwards by you or the Admissions Office. Everything the Admissions Board will need to assess your application should be filled in and uploaded before you submit. The admissions office will only process complete applications.

Saving a draft

Your progress will be saved automatically so that you return later to continue your application.

About your family name

You will be registered under the name as indicated in your passport or other proof of identity. Please also use this name in all correspondence. Please inform us if important documents such as your transcripts and diplomas indicate a different (e.g. maiden) name.

After submitting

You can check the status of your application online. The Admissions Office will communicate with you about your application through SIS.

If incomplete

If your application is found to be incomplete, it will not be forwarded to the Admissions Board, and your application will be cancelled. Please be informed that all complete applications received before the deadline will be processed first.

If complete

If your application is complete, your educational background will be assessed by trained diploma evaluators. After that, your application will be forwarded to the Admissions Board. The Board will evaluate your application carefully, check whether or not all entry requirements have been met, whether your academic background is sufficient and in the case of a (highly) competitive Master's programme, compare your application with the other applications received. Once the Board has reached a decision, you will be notified by email.

Notification

The procedure takes approximately 2,5 months. Students can expect to be notified before the notification deadline as listed on [Programmes and deadlines](#).

Notification period: all students will receive a decision regarding their application during this period at the latest. We will try and notify you earlier, but this may not be possible. So students who submit their application well in advance, may also receive the decision during the notification period.

After admission

Confirmation within 2 weeks

If admitted, you will be asked to accept or decline our offer online. Our programmes Conflict Resolution and Governance, Medical Anthropology and Sociology, Cultural Anthropology and Sociology – Visual track and our Research Master Social Sciences have a limited number of places. For this reason, we ask you to confirm within two weeks in My Applications that you really want to enroll in this master's programme. This step is necessary to initiate the administrative steps, such as course registration and a possible visa application. If you do not confirm your place within two weeks, we will give your place to the next student on the waiting list. This means that you will definitely not be admitted to the master's programme and your enrolment request will be cancelled. The confirmation is not binding – you can cancel your enrolment at a later date.

If you have been admitted to one of our other Master's programmes, you must also confirm your participation within two weeks via My Applications. This confirmation is not binding, but it is necessary to complete your registration and initiate the administrative steps, such as course registration and a possible visa application. You can cancel your enrolment at a later date.

If you are admitted to the pre-Master's programmes, please confirm your participation within two weeks by enrolling in **Studielink** for the pre-Master's programme stated in your admission decision e-mail. Again, this confirmation is not binding, but it is necessary to complete your registration and initiate

the administrative steps, such as course registration and a possible visa application. You can cancel your enrolment at a later date.

Receiving practical information

After admission and confirmation of acceptance, you will receive more information on practical matters such as visa, housing, and (payment of) tuition fees. The study adviser will provide you with extensive information on courses and schedules.

Visa

Applying for a visa and residence permit for the purpose of studying is only possible through the university. After admission, students with a nationality whereby a visa will be needed, will receive more information on the visa procedure. It is recommended however that you start preparing the visa application procedure as early as possible and start collecting the necessary documents before admission (even though admission cannot be guaranteed).

For current information, please refer to our university's website: [Visas and permits](#). It is also recommended to consult the [NUFFIC's website](#).

Please note that the visa procedure will take several months and can only be started after having met all requirements for admission which will be stipulated in the letter of acceptance.

Housing

After admission, international students will receive more information on student accommodation possibilities. For current information, please refer to our university's website: [Housing](#)

Please note that it is extremely difficult to find a room in Amsterdam, and also the UvA's student accommodation fills up very quickly. So please apply for housing as soon as you receive the housing information.

Tuition fees

After admission, you will receive more information on tuition fees and payment thereof. For current information, please refer to our university's website: [Tuition fees](#)

Fees are raised annually to reflect the rate of inflation.

Some students will be required to complete pre-Master courses involving extra tuition fees before starting the Master's programme. Please note that tuition fees for pre-Master's programmes may differ substantially from tuition fees for Master's programmes.

Fulfilling outstanding conditions

If accepted, you will need to make sure that all outstanding conditions as stipulated in your conditional acceptance letter are fulfilled one month prior to enrolment or, if you are in need of a visa, 3 to 4 months prior to enrolment.

If your Bachelor's diploma will not be issued in time

Non-UvA students: You cannot start the Master's programme without having completed your Bachelor's studies. If you have completed your studies, but the diploma itself will not be issued until after the start of the Master's programme, please provide the Admissions Office with an official statement of graduation sent by your university, declaring that you have fulfilled all requirements for graduation and also stating the date that the diploma will be issued.

UvA students: if you are an UvA student, your Bachelor's diploma needs to be recorded in SIS as completed. You cannot start with the Master's programme without having met this condition. It is therefore recommended that you apply for your Bachelor's diploma in SIS well in advance.

Re-apply

If you applied to one of our Master's programmes and were (conditionally) accepted and you decide not to enroll, you must cancel your registration in Studielink. If you then decide that you wish to start our Master's programme the following year, you can re-apply before the next application deadline: please register again in Studielink and then fill in and submit your complete application in SIS, including all the required documents and your letter of (conditional) acceptance received for the programme in the previous year.

Please note that you do not have to pay the application fee again in SIS. Please contact the admissions office to request a waiver via: apply-gsss@uva.nl.

Questions and contact

Technical support whilst filling in the application form or uploading your documents

If you are in need of technical support whilst filling in the application form or uploading your documents, you can contact the [Education Desk Social Sciences \(EDSS\)](#).

Questions about the programme(s) and application procedure

If you have any questions about the programme(s) and application procedure, please contact the Admissions Office.

GSSS Admissions Office
Email: apply-gsss@uva.nl

Disclaimer

We have tried to make the application form and instructions as accurate as possible. Nevertheless the information may not be exhaustive. Please check

our [website](#) regularly for updates. Please [notify](#) us if the information seems to be incorrect or incomplete.
