Welcome to Science Park! I am certain the Faculty of Science fulfills all the prerequisites to ensure you are going to have a great time here. As this is your first month, I would like to introduce you to the To Dah Loo and the Faculty Student Council (FSR). The To Dah Loo is a monthly newspaper to keep students up to date with everything that has to do with our Faculty. This includes changes in the Faculty board, practical information and upcoming events.

And of course this column, written by a member of FSR. The FSR is an elected group of students that represents the students of Science Park in the decision-making of the Faculty board. We advise the board about matters such as facilities and catering, but also give our opinion about new Teaching and Examination Regulations (OER). In this column, we will keep you up to date with all our activities.

To represent the students of Science Park the best we can, we need input from the students themselves. That means you too! If you come across any issue concerning the Faculty of Science that you would like to raise attention to, feel free to contact us. You can visit us in our room next to the big stairs in the main building (B0.112), or you can mail us at fnwi@studentenraad.nl.

Have a great first month at Science Park!

Kind regards,
Jasper Claessen
General council member
The Faculty Student Council 19/20

Finding your way at the University of Amsterdam

What would you like to learn?

The Institute for Interdisciplinary Studies offers elective courses for all UvA students. In order to develop new elective courses that fit YOUR curiosity and schedule, please let us know your topics of interest. Share your thoughts by filling out our questionnaire and help us create the best possible courses.

Empty your locker every day

The lockers will be cleared out every evening
