'Enjoy the lovely weather'

It's almost time for the summer holidays, and in September the new Student Council will be taking its place. With the elections for the new council already behind us, we're currently hard at work showing the ropes to the 12 people who will be representing your interests next year. At the same time, we're also rounding off a number of projects.

One of these projects involves the Teaching and Examination Regulations, which sets out the rules for students and courses. As a student, it's very important to be aware of these rules, as they tell you what your degree programme can and cannot expect from you. These regulations provide information pertaining to, among other things, resits, marking periods, mark compensation and any admission requirements that may apply.

Looking back on this year, we can be very happy about all we've achieved – which you've been able to read about in previous editions of this newspaper and on our blog. But the door to the future is still wide open. In the wake of the protest occupations a number of task forces have been or are being appointed. Made up of students and staff, these task forces are considering and discussing issues such as the University's profit-based mentality and institutional funding flows. In other words, there's plenty left for our successors to do!

We wish you every success finishing off the semester, and we hope you have a great holiday!

With kind regards,

Jonas Lodewegen

Amsterdams Chemisch Dispuut
"The ACD's 69th year was a wild one, with many active members and successful events."

SPECTRUM
"It was a year of postponed decisions, with neither goals nor determination, a year of spectral class."

via
"Over the past year, via once again organised parties, a conference, awesome trips, lots of fun and lots of great activities for all our members!"

COGNITO
"When young, you develop fast. This is illustrated by the many new initiatives within eight year old student union Cognito: we organised our first symposium, launched our new website and published our first yearbook during he past academic year."

GAOS
"GAOS had an energetic year, with a conference, multiple symposia, many drinks, and a trip to Poland to boot."

NSA
"It was a Peter fun year"

Biologievereniging
"This year we introduced around 600 new Life Sciences students to our faculty. Throughout the year we organised all sorts of activities, including two parent days, a career day and a number of fun weekend trips."

Prof. Karen Maex

Dear student,

On 6 June, the winners of the UvA Thesis Prize were presented with their awards. First prize went to Roosmarijn Goldbach, and second prize to Jurn Heinen Both are students at the Faculty of Science. Congratulations! Brilliant science and education. That is what our faculty is about.

The 2014-2015 academic year is almost at its end, and many of you are looking forward to a well-deserved holiday after this exams. I would like to thank you for the many connections we've made in the past year. The constructive criticisms, the heated discussions, but also the many occasions when we put our work aside and had an informal conversation, have reminded me time after time what a special, vibrant community we are. As an academic community we can be proud of our research and education, but above all, of everyone who contributes to make this possible. I wish you a fantastic year-end celebration on 26 June, a great summer, and hope to see you again in September.

Best wishes,
Karen Maex
Dean Faculty of Science

FESTIVAL ACTIVITIES

ACD

Stop by our barbecue during the Flux Festival to ride out the year on a rodeo bull!
www.acdweb.nl

CONGO

Make sure to visit Congo during the Flux party, where our party committee is organising a fun activity!
www.congo.eu

NSA

The NSA will be organising an awesome barbecue with a

bouncy castle where you can challenge each other to a duel.
www.nsaweb.nl

Spectrum

Capture your memorable Flux Festival moments in our spectacular photo booth.
www.svspectrum.nl

via

via is providing a tourist's-eye view of Science Park by organising a tour of the site by train!
