Urban and Regional Planning - Spatial Sustainability Studies	No	Competitive
Urban Studies (research)	No	Highly competitive

Expected selectivity

All students will need to meet specific entry requirements. The entry requirements are listed on our [website](#). Please refer to the information on application and admission per programme. In case of highly competitive programmes: in addition to meeting the specific entry requirements, the selection of the best candidates will be based on all aspects of their application file. Please refer to the table above for an indication on expected selectivity based on previous numbers of applications received and places available.

Late applications

Late applications will not be possible unless explicitly stated in this overview. If we allow for late applications, the overview will be updated and re-published on our website. This updated overview will indicate which programmes will allow for late applications. Late applications for these programmes will be processed on a first come, first served basis after all applications received before the deadline have been processed. Timely handling of late applications will be aimed for, but cannot be guaranteed.

Please note that selection may close after late submission and before the application can be processed and considered. If processing in time for the desired moment of enrolment is unachievable, then the application will be processed for the next available moment of enrolment (if any).

Please also note that submitting an application form after the deadline will be at your own risk. We may not be able to process your application on time or at all. Hard copy documents cannot be returned.

For students needing a visa and/or housing after admission, late applications will not be possible.

Questions and contact

If you have any questions about the programme(s) and application procedure, please contact the Admissions Office.
