Dear [firstname] [prefix] [surname],

In order to substantiate the policy of the University of Amsterdam (UvA) on equal opportunities and cultural diversity, the UvA would like to use the Cultural Diversity Barometer of Statistics Netherlands (CBS). The UvA therefore intends to share some of your personal data with CBS.

Why will my personal data be shared with CBS?
Insight into the cultural diversity at the university will increase the effectiveness of the university’s efforts to foster diversity and inclusivity, as stated in the Diversity Document. The Cultural Diversity Barometer offers organisations insight into the cultural diversity of their workforce, without individuals being identifiable in the figures. Organisations with 250 or more employees can participate.

Data cannot be traced back to individuals
The UvA only receives data on cultural diversity within faculties and job categories from CBS, and these data cannot be traced back to individual persons. The UvA itself will not register or manage any data on the cultural background of its staff. CBS will not use the data provided by the UvA for other research or purposes.

Questions or objections
Please visit our website for more information. If you do not want the UvA to share some of your personal data with CBS for the Cultural Barometer, please send an e-mail within two weeks to: baromterUtvraag-bbo@uva.nl.

Yours faithfully,

The Executive Board

Prof. Geert T.M. ten Dam
President
