Profiel

Ik ben getraind in de antropologie. Ik heb jarenlange onderzoeks- en onderwijservaring in zowel Nederland als Engeland, op gebied van zorg (dementie, intensive care, COVID19, palliatieve zorg) en duurzaamheidsvraagstukken (watergebruik, waterkwaliteit, afval). Mijn collega's vinden mij gedreven, hardwerkend, innovatief, constructief en een teamspeler. Ik ben op zoek naar een uitdaging buiten de academie – met kortere lijntjes met de praktijk en meer team-based methoden.

Huidige functie
